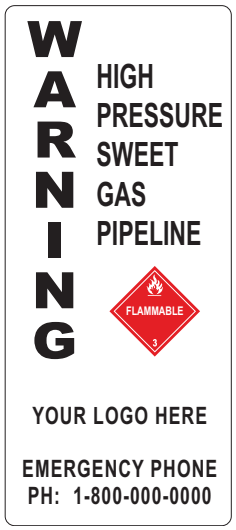
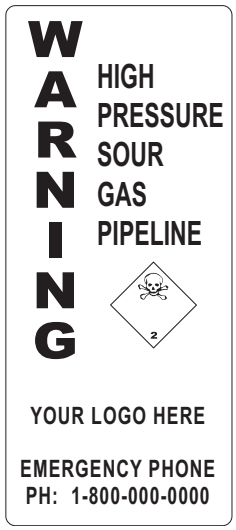
Matte White Finish





KM MARKERS

Kilometer markers are placed at the edge of the road to assist motorists in determining their location, and provide a means to identify the location of incidents and emergencies.

Custom Sizes and Substrates available

DIRECTIONAL SIGNS

While these items are often made from 4 mm coroplast, they are also available in many different materials. These signs are an inexpensive method of locating and marking rural locations and wellsites.

STANDS, POSTS and DELINEATORS

LS-III HIGHWAY STANDS 24″ X 48″

Perfect for temporary roadside sign mounting, our stands are portable, durable yet light-weight. They come with two flag holders and a mounting bracket that fits both our pre-drilled 24″ x 24″ (60 cm x 60 cm) and 30″ x 30″ (75 cm x 75 cm) traffic signs.

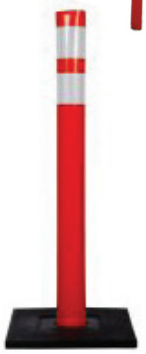
LS-II TEMPORARY ROAD HAZARD MARKER 24″ X 36″

Single-sided reflective sign stands c/w (1) 12″ x 24″ (60 cm x 30 cm) reflective steel panel and (1) 12″ x 24″ (60 cm x 30 cm) blank steel panel.

Double-sided reflective sign stands c/w (2) 12″ x 24″ (60 cm x 30 cm) reflective steel panels.

GLOW POST DELINEATOR

Manufactured from recycled plastic
11 lb. base (16″ x 18″, 4 1/2″ hole) slips over the tube
High-visibility 42″ orange poly tube
Comes standard with (2) 4″ 3M Diamond Grade reflective bands



HIGHWAY DELINEATOR

Our standard highway delineator guide posts are designed for marking road hazards and meet Alberta Transportation specifications for roadside shoulder delineation. These posts come with your choice of reflective strip in either white (3910) or fluorescent yellow (3911) 3M Diamond Grade Cubed.

HEAVY DUTY POSTS

These are built to Alberta Government highway Traffic specs (2 Lbs./ linear ft). They are available in 8′ and 10′ lengths and have holes 1 inch apart for the entire length.

One unit contains the hardware needed to mount one sign.

STANDARD SAFETY SIGNS

10" X 14" WHITE ALUMINUM, POLYBLEND PLASTIC, or ADHESIVE DECAL

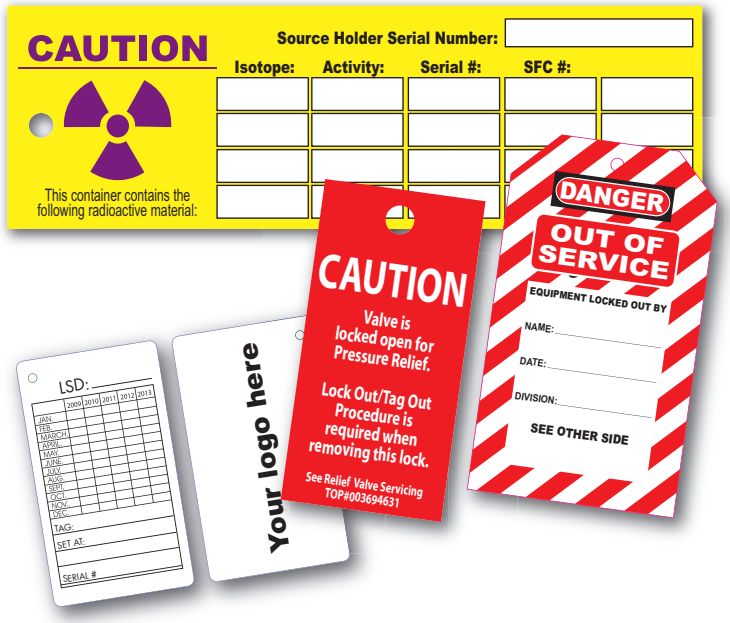
TAGS

.020" or .040" STYRENE

From caution tags to danger tags, - you can customize your tag for your facility. A well-directed message can make a greater impact on your employees, and your lockout and tagout program is the most important to everyone's safety. Add your company name and any text you need for hard-hitting OHAS complaint tags. Bold messages and designs build awareness of lockout procedures with colors and graphics that draw attention toward a particular safety message.

Each custom tag is available as a double-sided or single-sided and can feature a brass-reinforced eyelet for extra durability if required.



VINYL DECALS

FROM HARDHAT DECALS TO LARGE VEHICLES

RTA, or "ready to apply" letters and decals are customized to your measurements and specifications. RTA letters can be applied to nearly any smooth surface and are available in a wide range of colors, - choose from glossy, metallic or reflective.

Digital printed decals allow you to do full color labels without all the setups. We can also contour cut and custom cut these labels to your exact specifications without the expensive tooling other processes require. These decals are made to last for both indoor and outdoor conditions and are available in a wide range of materials, - choose from glossy, matte, clear, reflective or perforated.

Here is a list of decals and vinyl lettering we can develop:

- Vinyl Lettering • Custom Window Decals • RTA Lettering
- Interior Sign Solutions • Backlit Signs & Decals
- Large Format Graphics • Frosted Window Graphics
- Car Window Decals • Car Window Lettering • RTA Graphics
- Custom Cut Logo Decals • Wall & Mural Decal Graphics

INSTALLATION AVAILABLE

DANGEROUS GOODS PLACARDS

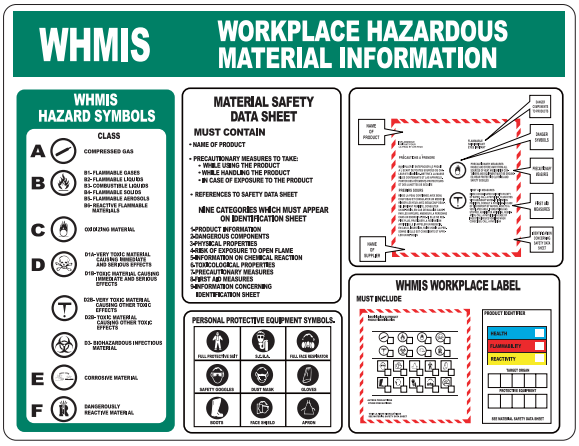
Placards are displayed on vehicles and tanks to identify the risk of products being transported. Any placard can be made with your choice of pre-printed UN number. We manufacture our entire placard line to meet Transport Canada guidelines and offer them on four materials, - hardback, magnetic, aluminum or decal.

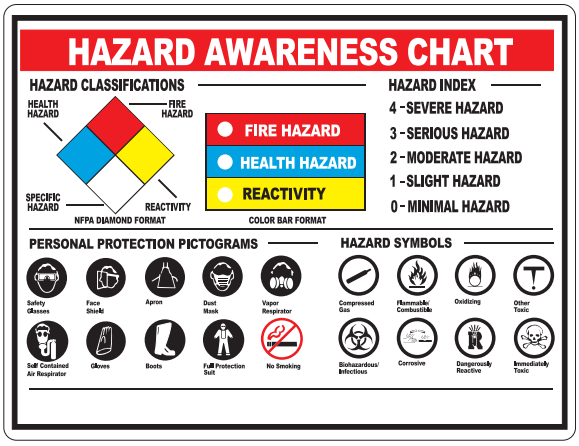
10.75" x 10.75"

WHMIS CHARTS

These charts provide detailed information on proper W.H.M.I.S. labeling, descriptions of class symbols, M.S.D.S , and personal protective equipment symbols.

Available in a wide range of substrates at any size.





SHIPPING LABELS

Shipping Labels are essential for packages that contain dangerous goods. Labels are available in two materials, polyblend for indoor applications and vinyl for extended outdoor usage. Our Shipping Labels are manufactured to Transport Canada specifications with fade resistant inks.

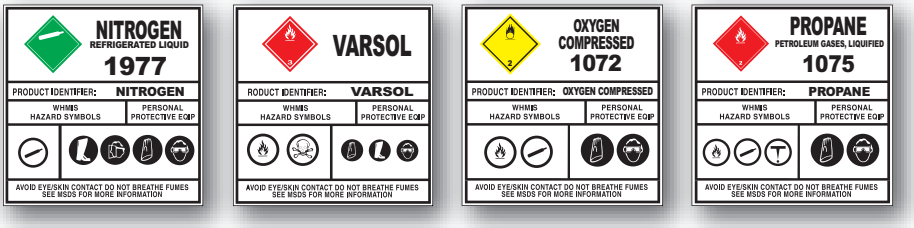
4″ x 4″ (100 mm x 100 mm)

WHMIS LABELS & TAGS

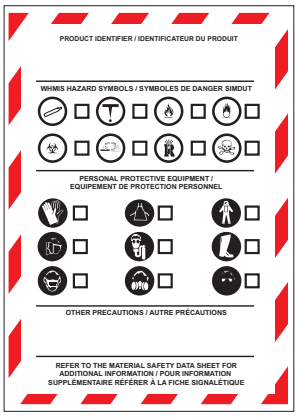
The purpose of WHMIS labels is to alert workers to the main hazards of controlled products and provide instructions for safe handling, and to direct workers to the M.S.D.S. for more information.

Workplace labels are required on containers of controlled products produced on site, and on secondary containers where the product has been transferred from the original container.

4″ x 4″ *Available as a decal or on hardback.*



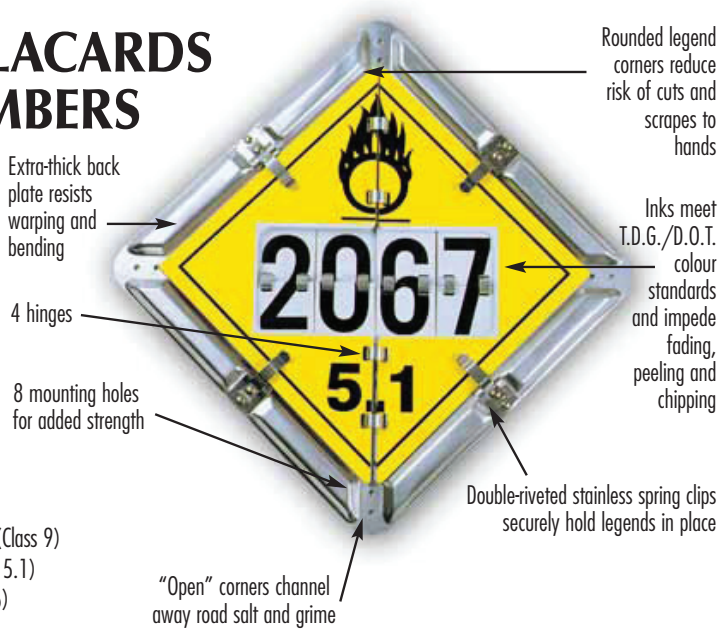
5.75″ x 8″
Available as a decal or on hardback.



PLACARDS WITH HOLDERS

9 PAGE FLIP CHART PLACARDS WITH ROTATING NUMBERS

Versatile flip charts help make changing numbered placards quick and easy. This Flip Chart Placard unit contains both Canadian & US legends. Our design is built for durability, heavy .031" aluminum back plate for wind protection and baked-on polyester finish to resist fading. Plus they offer screen-printed legends on corrosion-resistant aluminum panels, stainless steel spring clips to hold panels securely in place and rounded corners for easy handling. Has an unpainted back plate to blend with trailers. Size: 13-3/4" x 13-3/4".



CANADIAN & U.S. (D.O.T.) LEGENDS INCLUDED

- Blank White
- Combustible (White Bottom, Red 3) U.S.A.
- Corrosive (Class 8)
- Flammable (All Red, White 3)
- Inhalation Hazard (Class 2) U.S.A.
- Inhalation Hazard (Class 6) U.S.A.
- Miscellaneous (Class 9)
- Oxidizer (Class 5.1)
- Poison (Class 6)

Standard unit with unpainted aluminum back plate.

EASY ACCESS ALUMINUM PLACARD HOLDER

These holders are great for extreme weather conditions because they come with built-in protective shield that covers the placard. In addition they have 2 stainless steel clips for added durability. This is our easiest to use placard holder product for mud, dirt and snow applications. Entire front clear shield removes making placard changing easy. Product comes with clear shield, but extra shields can be ordered separately.

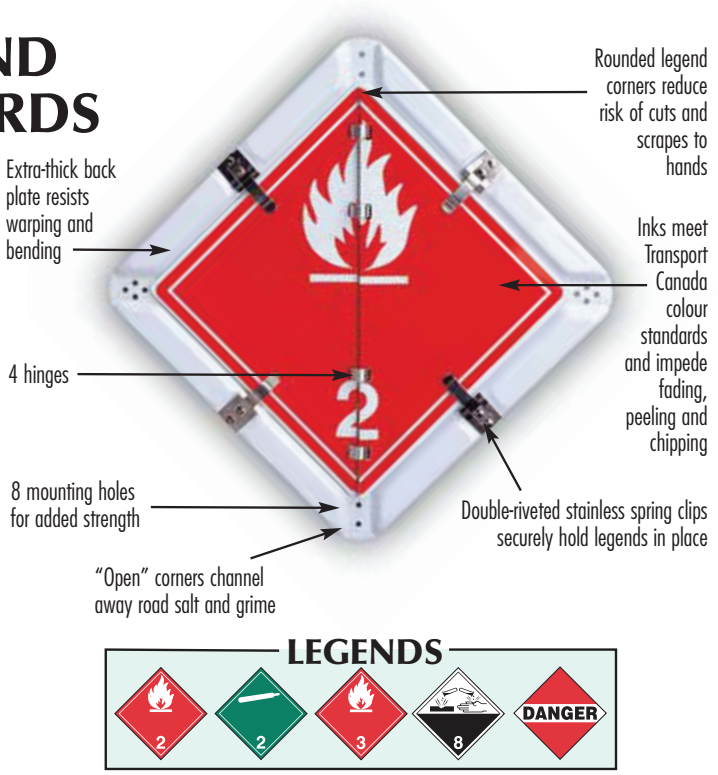
CANADIAN 5 LEGEND FLIP CHART PLACARDS

With 5 Canadian T.D.G. legends at your disposal, you can use this flip chart for almost any load. Our exclusive design is built for durability, heavy .031" aluminum back plate for wind protection with baked-on polyester finish to resist fading.

Plus they offer screen-printed legends on corrosion-resistant aluminum panels, stainless steel spring clips to hold panels securely in place, and rounded corners for easy handling. Base is a bright white enamel finish.
Size: 13-3/4" x 13-3/4".

CANADIAN LEGENDS INCLUDED

- Flammable Liquids (Class 3)
- Corrosive (Class 8)
- Compressed Gas (Class 2)
- DANGER
- Flammable Gas (Class 2)

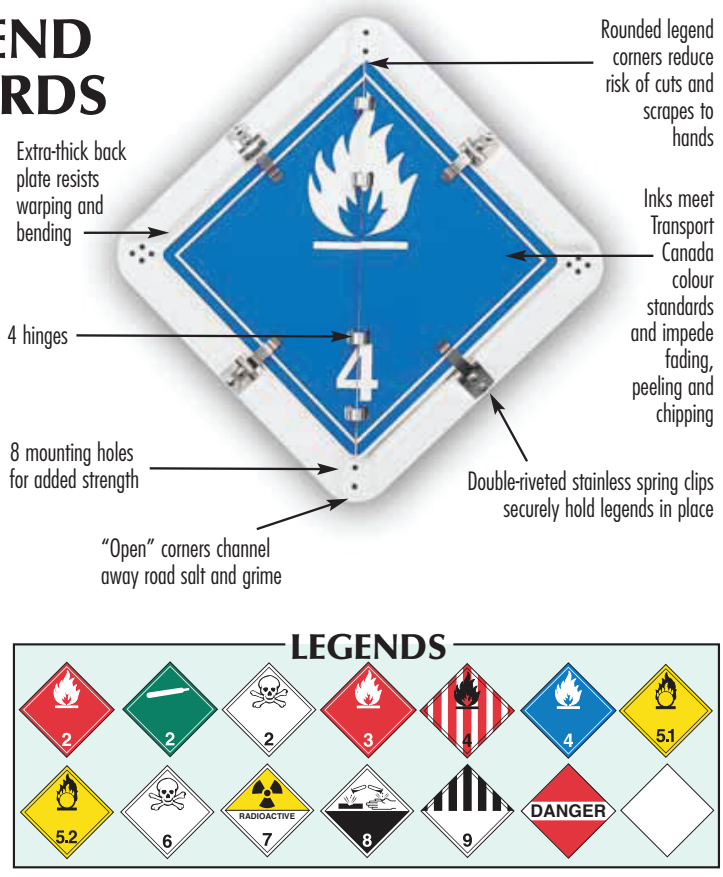


CANADIAN 14 LEGEND FLIP CHART PLACARDS

With 13 Canadian T.D.G. legends plus a blank white page at your disposal, you can use this flip chart for almost any load. Our exclusive design is built for durability, heavy .031" aluminum back plate for wind protection with baked-on polyester finish to resist fading. Plus they offer screen-printed legends on corrosion-resistant aluminum panels, stainless steel spring clips to hold panels securely in place and rounded corners for easy handling. Base is a bright white enamel finish. Size: 13-3/4" x 13-3/4".

CANADIAN LEGENDS INCLUDED

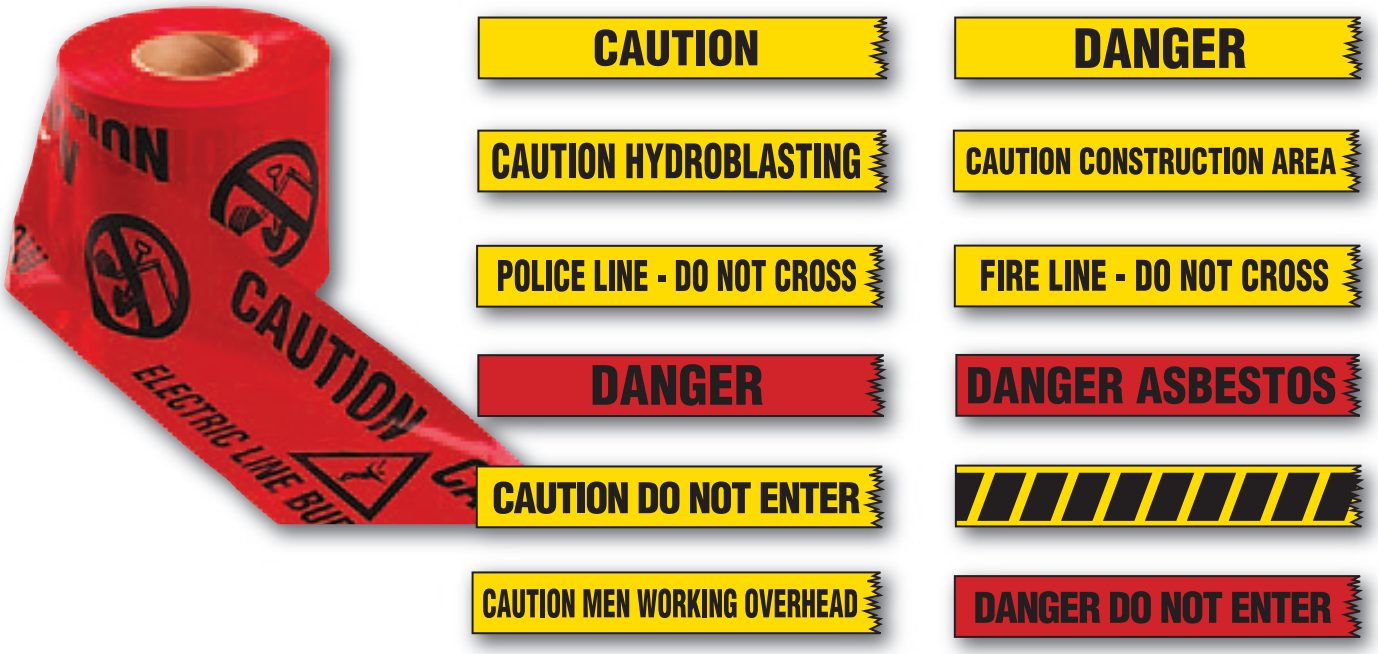
- Blank White
- Corrosive (Class 8)
- DANGER
- Dangerous When Wet (Class 4)
- Flammable Gas (Class 2)
- Flammable Liquids (Class 3)
- Flammable Solid (Class 4)
- Miscellaneous (Class 9)
- Compressed Gas (Class 2)
- Oxidizers (Class 5.1)
- Organic Peroxides (Class 5.2)
- Poison Gas (Class 2)
- Poison (Class 6)
- Radioactive (Class 7)



TAPES

BARRICADE TAPE

Our Premium Grade Barricade Tape offers a cost effective way to safely mark your hazards. The upgraded film thickness on these products offers better longevity and will perform longer in windy outdoor environments. Rolls are printed either black on safety yellow or black on fire red. All rolls are 3″ x 1000′ (72 mm x 300 M) on a 3″ ID core.



ENGINEER GRADE REFLECTIVE TAPE

Looking for increased awareness? Try our line of Engineer Grade Reflective Tapes. These tapes offer vibrant daytime visibility with reflective properties for nighttime use. All tape is rated for use outdoors for a 7-year life span. Tape has an aggressive adhesive that will adhere to almost any clean, dry, smooth surface. Hazard striped products have a protective lamination to ensure the printed stripe will not wear off.

CUSTOM SIGNS ~ *We'll design the sign to fit your needs!*

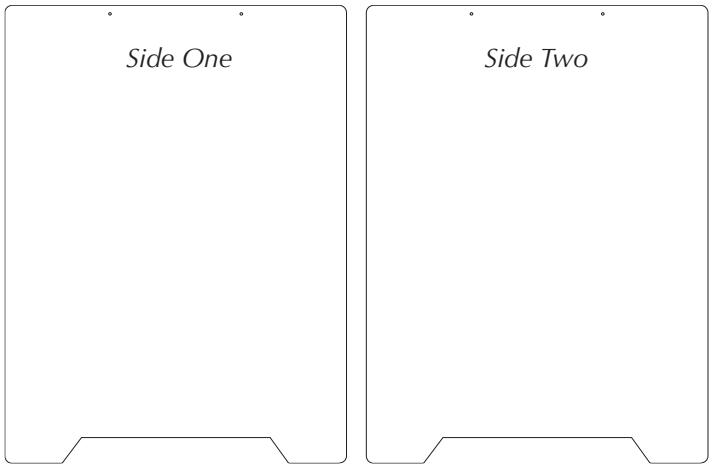
Door Print *~ Image from 123rf.com printed onto a standard house door.*

Billboard *~ Printed on dibond*

SANDWICH BOARDS

24" X 32" or 18" X 24" INTACEL



MAGNETICS

24" WIDE ROLL

Magnetic signage is the cheapest and most effective solution for implementing a quick marketing and advertising strategy for smaller business that don't have the kind of money to spend on other advertising methods.

Great for home-based businesses, real estate agents, and many other companies. Maximize your company's exposure on your vehicles. Excellent for rental or leased vehicles. Easy to remove, durable, waterproof.

LICENSE PLATES

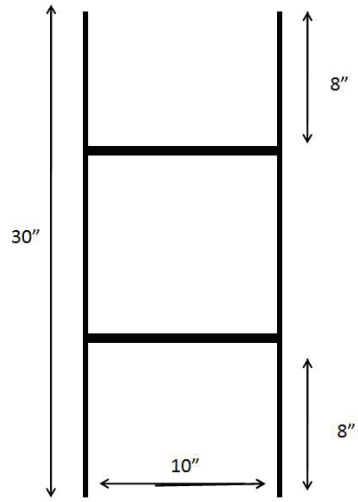
12" x 6"

The perfect way to advertise or personalize your vehicle. We can print any logo or picture with or without lettering. Our plates come in aluminum or chrome.

STEP STAKES

The ultimate sign holder for commercial, real estate, political and other outdoor 4 mm coroplast lawn signs.

Step stakes are inexpensive and easy to set up, saving you time and money. Produced out of 9 gauge hardened steel and design specifically for 4 mm Coroplast (corrugated plastic) Signs. Also called "H-frames" they have a dual cross bar designed help stabilize your sign from damaging weather conditions. Step stakes make posting signs easy, just insert one side into the flutes of your coroplast sign and the other into turf by stepping on bottom cross bar. Foot pressure will do!



BANNERS

CUSTOM VINYL BANNERS

*Banner material is 54" wide (52" of printable space) x any length**
**Some restrictions may apply - ask our sales representatives*

A banner provides a flexible, portable and affordable way to put your message in many places. The versatility of full color banners, whether displayed horizontally, vertically, indoors or out, make them the ideal choice for just about any message you wish to convey.

We use a strong 13 oz. reinforced vinyl banner material, scratch-proof ink, and solvent printers to produce an amazing banner that will last 1-2 years outdoors.

SUBSTRATES and METAL SIZES

COROPLAST
Corrugated plastic, generally for inside use. Outside use with minimal exposure 1-2 years. Standard thickness is 4.0 mm (though is available in thickness ranging from 4 mm to 10 mm). Available in Several color options.

STYRENE
Interior translucent white sandblasted one side. Inside use. Comes in a variety of thicknesses. Our standard stock is 020″ and 040″

POLYBLEND
055 Polyblend is a UV stabilized polyethylene sheet that has been corona treated both sides for decoration by conventional methods. Outside/Inside use.

SINTRA
Expanded smooth surface PVC sheet, excellent for interior use. Standard thickness is 3 mm and 6 mm. Available in a variety of colors.

INTACEL
White expanded PVC sheet, can be routered, glued, drilled and painted. Inside use. Outside use with minimal exposure, will warp in sun if large in size. Used for sandwich boards. Standard thickness is 3/8″.

MAGNETIC SHEETING
Vehicle Grade magnetic sheeting with a white semi-gloss surface. 030″ in thickness.

PLEXI & LEXAN
Plexiglass is a transparent plastic intended as a replacement for glass. Lexan is a highly durable poycabonate resin thermoplastic excellent for backlit signage. Comes in a variety of thickness and color options. Excellent for outdoor long term usage.

GATORFOAM
A structural panel of polystyrene foam core and wood fibre veneer. Excellent for outdoor applications but MUST be protected from UV degradation by painting.

ULTRA BOARD
Extruded polystyrene foam core with .015" high impact polystyrene faces. Frequently used for 3 dimensional router cut signage. Interior usage only.

DIBOND
Dibond material is an 3 mil aluminum composite material made of two light weight sheets of .010" aluminum with a thermoplastic core. Excellent for long-term exterior use.

ALUMINUM
080 Standard traffic spec metal covered in either engineering grade or diamond grade reflective vinyl. Outdoor use.

STANDARD METAL SIZES ~ *All metal has a 1.5″ (3.81 cm) radius corner*
48″ x 48″ (120 cm x 120 cm), **48″ x 24″** (120 cm x 60 cm), **36″ x 36″** (90 cm x 90 cm), **30″ x 30″** (75 cm x 75 cm), **24″ x 24″** (60 cm x 60 cm), **24″ x 30″** (60 cm x 75 cm), **24″ x 36″** (60 cm x 90 cm), **24″ x 18″** (60 cm x 45 cm), **18″ x 18″** (45 cm x 45 cm), **12″ x 36″** (30 cm x 90 cm), **12″ x 24″** (30 cm x 60 cm), **12″ x 18″** (30 cm x 45 cm), **12″ x 16″** (30 cm x 40 cm), **12″ x 12″** (30 cm x 30 cm), **5.5″ x 13.75″** (15 cm x 35 cm)
